

JUST THE FACTS, AND FAST...

For over two decades Multiview has provided financial software to hundreds of companies in over 40 industries. Here is a brief overview of our company, our products and why our customers think we are the best at what we do.

To see our products at work, contact us and we will arrange a short Web-based demo at your convenience (978.532.5056).

AT A GLANCE: TEN REASONS TO CHOOSE MULTIVIEW

Here are some reasons our customers tell us they chose Multiview over competing products:

- **Top value.** Multiview's total cost of ownership is one of the lowest in the industry.
- **No need to involve your IT department.** Multiview's products are designed to be installed and run with no IT staff intervention.
- **Broad use and acceptance.** We have hundreds of customers and thousands of end users in over 40 industries.
- **Our products grow with you.** Multiview's powerful, yet flexible design accommodates growth and change, instantly. Customers that started as \$20 million private companies, use the same Multiview products now that they are multi-billion-dollar industry leaders.
- **Fast implementation—guaranteed.** Our 60-day implementation guarantee means you are up and running much faster than the industry average.
- **Top-notch, personal service.** Our Customer Support team is staffed by accountants who understand your business needs. You get a dedicated personal representative, not an anonymous voicemail box.
- **Solid technology.** Multiview is built on proven, robust industry-leading technology.
- **Work your way.** Multiview allows you to match your accounting system to your corporate organizations requirements, not the reverse.
- **Work in a secure environment.** Multiview's sophisticated multi-faceted security system protects your data and assists with Sarbanes-Oxley compliance.

- **Multiview, our name says it all.** With a single set of debits and credits you can simultaneously view your corporate results from an unlimited number of perspectives—including financial, tax, regulatory and operational.

AT A GLANCE: OUR CORE PRODUCT SUITE

Multiview Financial Software provides an integrated, comprehensive suite of financial applications to address all of your accounting, reporting and analytical needs:

- **Financial and BI, Business Intelligence, reporting** are fully integrated with our accounting applications, so you get up-to-the-second accuracy, ease-of-use and superior analytics within a single integrated application.
- **Workflow.** Workflow provides a visual medium for the setting up and monitoring of all your authorization and review processes. Workflow's Web interface makes it easily accessible to anyone in your organization.
- **Document Imaging.** Easily record and attach images to support your financial transactions. These images can be PDF, Excel, Word, etc. files, all accessible real-time when querying a transaction.
- **General Ledger.** This powerful financial warehouse is the core of our suite. It lets you manage and report on financial, budget and statistical data in any combination. You get BI and Corporate Performance Measurement (CPM) information from a single "point of truth".
- **Accounts Payable.** Our Accounts Payable product gives you complete control over payments and payment strategies. Built-in policy tables enhance control and speed processing.

Becoming a customer of Multiview was one of the best business decisions we ever made. Multiview's product suite, and their commitment to customer service, is stellar!

Finance and
Information Systems,
The Hillman
Company*

Our product suite:

- *Financial Reporting plus BI Analytics*
- *General Ledger*
- *Standard Budgeting*
- *Forecasting and Modeling*
- *Accounts Payable*
- *Purchasing*
- *Accounts Receivable*
- *Order Management and Invoicing*
- *Asset Management*
- *Inventory*
- *Workflow*
- *Document Management*

- **Accounts Receivable.** Accounts Receivable manages receivables, cash receipts and customer credit. It allows you to control these critical business functions while retaining the flexibility you need to adapt to changing business conditions.
- **Purchasing.** Purchasing is a comprehensive product that lets you effectively manage requisitions, purchases, receipts and invoices.
- **Inventory.** Inventory complements the rich functionality of Multiview Purchasing by allowing you to manage the receipt, movement, costing and withdrawal of items from your inventory.
- **Order Management and Invoicing.** Order Management provides you with a fully integrated order-taking module to capture and manage the fulfillment of customer orders.
- **Asset Management.** Our Asset Management System is a comprehensive tool for measuring and managing tangible and intangible assets. MV-AMS allows you to exercise tight financial controls and minimize tax liabilities across all companies and assets.

AT A GLANCE: STRATEGIC PARTNERSHIP PRODUCTS

To help us address all of your needs, Multiview has partnered with leading specialized software vendors to provide the following additional products:

- **Human Resources and Payroll.** Multiview's partnership with Optimum Solutions enables us to provide a integrated, market-leading, flexible, browser based Human Resources, Payroll, Time Management and Employee Self Service product.
- **Document Management.** Our strategic partnership with Loris Technologies can provide you with an enterprise-wide document management, disaster recovery environment and email archival solution.
- **Forecasting & Modeling.** Multiview's partner, Adaptive Planning, offers an integrated sophisticated budgeting and forecasting product designed to dramatically improve and shorten the budgeting process.

SUPPORT AND SERVICES

Assigned representatives personally assist you and your staff. As a Multiview customer, your call goes directly to your assigned Customer Support representative, who is an accountant and understands your business and personal needs. This personal service, combined with the fact that our Customer Support accountants have 50+ years of accounting and Multiview experience, results in 98% "first call" resolution.

ENJOY SEAMLESSLY-INTEGRATED, ADAPTIVE SOFTWARE

The Multiview suite provides you with an adaptable, integrated and comprehensive financial data warehouse. Our product is ready to be mined by end users, yet requires no IT involvement.

The genius of Multiview is in the simplicity; the power is in the adaptability. Our exceptional design can support your organization's growth, without the usual growing pains. Multiview's products reflect the best practices of over two decades of evolution, and the feedback of thousands of Multiview users.
